

World Heart Day Celebrations at Rajiv Gandhi Super Speciality Hospital Tahirpur Delhi, Organized by Department of Cardiology.

World Heart Day is celebrated on 29 September every year all over the world. It was started in the year 1999 under aegis of World Heart Federation to draw attention to the various heart ailments and formulation of policies to prevent them. There is a new theme every year and this year it is "Use heart to know heart". It implies that people should acquire knowledge about their heart health and learn how to protect their heart to lead a healthy life.

Department of Cardiology at Rajiv Gandhi Super Speciality Hospital, Tahirpur Delhi organized public awareness lecture on World Heart Day on 29/09/2023. The public lecture was given by Dr Gaurav Singhal, Assistant Professor Cardiology and Dr Pankaj about various heart ailments and how to control risk factors to prevent Heart Attack. It was followed by questions from audience answered by panel of experts comprising of Dr Neeraj Pandit, Professor of Cardiology Dr Vijay Kumar Gupta Professor of CTVS and Dr Gaurav Singhal. The lecture was well attended by public staff and faculty of the hospital.

The Department of Cardiology serves the unmet needs of state of art Cardiology services including cardiac interventions to residents of East Delhi and neighbouring state it is actively involved in patient care, Emergency management of heart attack, teaching and research work. It plans to start various speciality clinics like Heart Failure, Pacemaker & Valvular Heart Disease. It also plans to start "Pain Chest Centre" a unique facility for 24X7 Emergency management of Heart Attack patients. It would be one of its kind in East Delhi.
